

The Screen Film for Projectors

# MRPS

- 360 degrees super-wide viewing angle
- Most suitable for ultra short throw rear projection
- Easy solution for over 100 inch display
- Selection of four type films desirable for use

# Projection New Experience

**Wide & Short**  
**Attractive color and beauty for all**

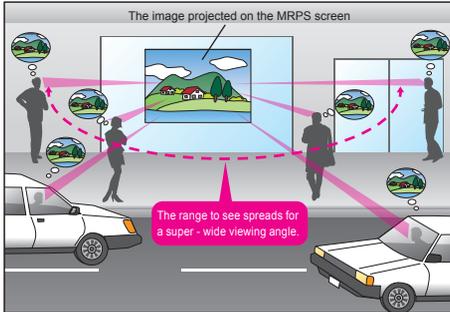

MRPS is a screen film, projects high-luminance and high definition image even compatible to ultra short throw projectors. Accommodate both rear and front projection. Variety of application such as Digital Signage and ambient decoration.

## Feature

### Wide

**360 degrees super-wide viewing angle**

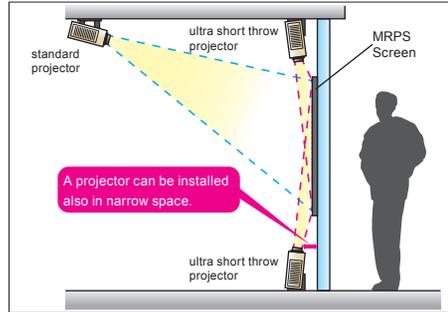

MRPS provides high-brightness, high-definition image from both front and rear of the screen. No restriction of the viewing angle significantly attracts the viewer passing through the show window.

### Short

**Most suitable for ultra short throw rear projection**

You can enjoy the high definition image from the ultra short throw projector without notable brightness irregularity. Wide screen size projection attainable with narrow backyard space.

**Easy solution for over 100 inch display**

Window area can be converted to over 100 inch screen. Easy installation comparing to heavy LCD monitor.

**Selection of four type films desirable for use**

#### Bright Type (White)

White for significantly bright projection.

#### High Contrast Type (Gray)

Gray for high contrast projection under bright circumstance.

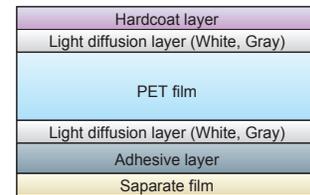

#### Transparent type, Clear type

Transparent for projection with floating feeling, and special ambient effect. Lineup of two products with different transparency and brightness.

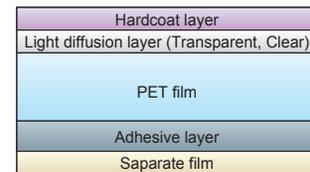

## Specification

	Product Name	Product Name	Feature	Size
Adhesion	MRPS-W100AH	MRPS-W100P	Bright type	1,524mm x 10m
	MRPS-G 100AH		High contrast type	
	MRPS-T 100AH	MRPS-T 100PR	Transparent type	
	MRPS-C 100AH		Clear type	
Unadhesion				

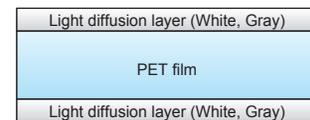

## Layer composition

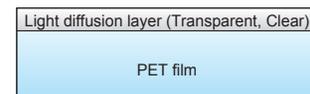

MRPS-W100AH, SH (White)  
MRPS-G 100AH, SH (Gray)

MRPS-T 100AH, SH (Transparent)  
MRPS-C 100AH, SH (Clear)

MRPS-W100P (White)  
MRPS-G 100P (Gray)

MRPS-T 100PR (Transparent)  
MRPS-C 100PR (Clear)

※ Adhesion absorbers 99% UV-ray.

	Product Name	Film color	Thickness ※1	Haze ※2	Total light transmittance ※3
Adhesion	MRPS-W100AH, SH	White	275 μm	98% ≤	52%
	MRPS-G 100AH, SH	Gray	275 μm	98% ≤	31%
	MRPS-T 100AH, SH	Transparent	200 μm	23%	83%
	MRPS-C 100AH, SH	Clear	200 μm	7%	88%
Unadhesion	MRPS-W100P	White	150 μm	98% ≤	64%
	MRPS-G 100P	Gray	150 μm	98% ≤	41%
	MRPS-T 100PR	Transparent	120 μm	24%	83%
	MRPS-C 100PR	Clear	120 μm	8%	88%

※The values shown above are typical values, not guaranteed values.

※1 : Without separate film. ※2 : Haze : JIS K 7136 ※3 : Total light transmittance : JIS K 7361-1
